

# THE DAILY HERALD.

Correspondence solicited on all matters of local interest, or of interest to the people of Southwest Texas. Each communication must be accompanied by the name of its author, not for publication (unless so directed), but as a guarantee of good faith, and when by request anonymous signatures appear to such communications the right is reserved to disclose the name of the writer should a necessity arise for such disclosure.

SATURDAY, JANUARY 17, 1903.

It is Speaker Neff.

SPEAKING of things that endure forever, reminds one of the Fort Brown case.

THE National Live Stock Association enters an emphatic protest against the beef combine, notwithstanding the obstinate opinion of some people that there is no such combine.

THE reminder recently given the Administration that Gen. Wood's sole duty for some time had been merely to draw his salary appears to have taken effect. The general has applied for service in the Philippines and his request is granted.

JUDGE TAFT as civil governor of the Philippines appears to be the right man in the right place. The people of the islands have protested against his giving up the office to take the seat on the Supreme Bench, which the President offered him, and it has been settled that he will retain the governor's office.

AMERICAN papers are publishing copyrighted cables relating disgusting scandals in which the notorious Princess Chimay is involved again. American newspaper readers are long-suffering and patient to a degree, but it is time for them to demand a higher grade of news in the papers which are admitted to their homes.

AS MAY be seen in the Hidalgo communication in this evening's HERALD, a most important invention, which it is asserted will free boilers from sediment, has been made by E. M. Ruthven, the engineer at the Closser plantation. If Mr. Ruthven's discovery prove to be effectual and sufficiently inexpensive to be practicable, of which there appears no doubt, he will have solved a very troublesome problem for all users of boiler machinery, and the invention will be especially welcome in this region of irrigation plants. It is to be hoped he may lose no time in securing patent rights and placing his invention on the market. He will deserve hearty congratulations on his success if he succeeds.

THE republicans in congress have finally become convinced that the poor people of the North are freezing for lack of fuel, and have agreed with their democratic colleagues that the coal tariff should be removed, but will only make it temporary. Since prominent republican statesmen first denied the existence of such a duty, and when shown their mistake declared that it was an inexcusable imposition, it is difficult to understand why the representatives of the party in congress should refuse to repeal the duty once for all. The insolent coal barons, who openly defied and taunted President Roosevelt, on his first effort to settle the coal strike, do not need any protection, nor do they deserve any consideration at the hands of congress.

## Twentieth Century Medicine.

Cascarets Candy Cathartic are as far ahead of ancient pill poisons and liquid physic as the electric light of the tallow candle. Genuine stamped C. C. C. Never sold in bulk. All druggists, etc.

Don't use Sticky Plasters

SLOAN'S Liniment

Clean Efficient Reliable 25cts. a Bottle

### CHILD LABOR IN FACTORIES.

Philadelphia North American.

Thousands of girls, between the ages of 10 and 17, work in the factories of Pennsylvania from 6:30 at night until 6:30 the next morning. It is estimated by reputable authorities that fully 50 per cent of these little ones are less than 13 years old—the age limit under which, says the Pennsylvania statute, no minor may be employed.

These children may not sit at their work. A scant half hour at midnight is given as a lunch time. Many walk long distances, some as far as three and four miles, to the mills. Glazed and pointed windows prevent them looking without, and make prisons of the working-rooms.

If a child is taken ill she must remain in the workroom or office of the mill until morning, or walk home unattended in the night. The heat of summer days robs the tiny toiler of needed rest, and household drudgeries and cares are at all times added to her already overwhelming burden.

One of the vast advantages accruing to the Texas-Mexican Railroad since it was made standard gauge is the increase in its freight business. This freight is taken on at Galveston, comes over the Aransas Pass via Cuero to Alice and thence over the Texas-Mexican to Mexico through Laredo. All this business formerly came through San Antonio, thence down the I. & G. N., a rather roundabout way as the Laredo route is claimed to be forty-eight hours nearer Mexico City from Galveston than the route by San Antonio. Before the Texas-Mexican became a standard gauge road it was cheaper to ship freight via San Antonio than to unload and reload at Alice on narrow gauge cars. The improvement of this line is one of the chief things in that great industrial development now in progress in the Rio Grande valley.—Laredo Times.

## Worry

Almost Unnerved Me—Heart Pains.

Short of Breath, Faint and Languid.

Dr. Miles' Heart Cure and Nervine Cured Me.

"It has been five years since I was cured of heart trouble by your Heart Cure and Nervine, and I am just as sound as a dollar in that organ today. For several years I had been suffering with my heart. Breathing had become short and difficult at times, sharp pains about the heart, sometimes accompanied with fluttering would make me feel faint and languid. The least excitement or mental worry would almost unnerve me. I felt that the trouble was growing worse all the time, and after trying many remedies prescribed by physicians without obtaining relief, I was induced to give your remedies a trial. I was relieved the second day, and after taking three or four bottles all symptoms were removed and have never showed signs of returning."—REV. GEO. W. KIRACOFF, Chincoteague, Va.

There are many symptoms of heart disease, which so closely resemble those of more common nervous disorders as to frequently mislead the attending physician. Often in cases of heart trouble the stomach, kidneys, liver or lungs become affected. Again the symptoms may be those of weakened nerves, as tired feeling, sleeplessness, timidity, the patient is easily excitable and apt to worry without cause. If you have the least suspicion that your heart is weak study your symptoms and begin the use of Dr. Miles' Heart Cure, the great heart and blood tonic, without a day's delay.

All druggists sell and guarantee first bottle Dr. Miles' Remedies. Send for free book on Nervous and Heart Diseases. Address Dr. Miles Medical Co., Elkhart, Ind.

35 Cts. Mexican coin, per hundred old newspapers at this office.

### SOLID TRAIN OF RICE.

Port Arthur, Tex., Jan. 13.—The greatest single shipment of rice that has ever been made at any point in the rice district, if not from any place in the whole country, left the Port Arthur rice mill early this afternoon over the Southern Pacific Railway, bound for New Orleans.

The shipment consisted of a solid train of thirty cars loaded with nothing but rice, the entire shipment being destined for New Orleans and valued at \$35,000. Arrangements have been made with the Southern Pacific Railway to run the train through solid to New Orleans.

### TEXAS NOTES.

Pat M. Neff of Waco was elected speaker of the house.

The federal court was in session at Galveston this week.

A steady rain fell all over South Texas the early part of this week.

### Get What You Ask For!

When you ask for Cascarets Candy Cathartic be sure you get them. Genuine tablets stamped C. C. C. Never sold in bulk. A substitutor is always a cheat and a fraud. Beware! All druggists, etc.
